The interesting figures given by Mo Rocher, Commissioner of Customs at Canton, concerning the working and out-turn of the Mint in that city have some importance for the people of Hongkong, who are, whether voluntarily or not, considerable patrons of the subsidiary silver coins now being so freely produced by it. The CHAIRMAN said—Gentlemen, as is indicated by the notice which you have just heard read, this meeting has been called for the purnose of appointing auditors to the Corporation, At our last meeting, held on the 27th February, Mesers. Fullarton Henderson and F. T. roster were selected for this duty; since them. however, both these gentlemen have temporarily left the Colony, and under the circumstances becomes necessary, in terms of Article 17 our deed of settlement, for the sharecolders in general meeting to fill the vacon cies. I may mention that the directors have received certain applications from gentlemen who are willing to serve, and no doubt these olders to confine themselves to proposing one candidate at a time, and not two coupled under : single resolution. All the new Share "Singapore currency." words which the Chinese have of latey ears been compelled to coin to express the numerous ob- Certificates must be produced when paying jects in machinery, photography, telegraphy, and in science generally, which the rapid advance

of foreign relations has imposed upon them are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size with Good of body, thereby effecting a vast economy of space, schieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore charactorized Chinese publications.

To illustrate the vast scope of the work the following facts are submitted for consideration:-Chalmers' Vocabulary contains about 16.000 Chinese characters and Medhurst's English and Chinese Dictionary about 100,000, whilst RRACE. this work contains more than 50,000 English Harbour, words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and THIS Company having appointed the under-other elementary works as yet published, the grammars and aigned AGENTS for their COAL MAY, student of this difficult language absolutely reras above.

Copies of Reports and this work contains more than five times as Analysis to be seen in the Offices of the undermany as any other Dictionary hitherto pub- signed.

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all CECOND FLOOR, DUDDELL STEER No. 3.
